Ex5Q2

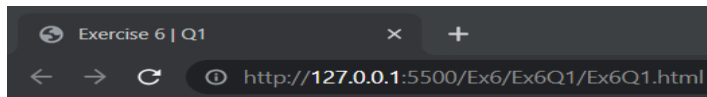

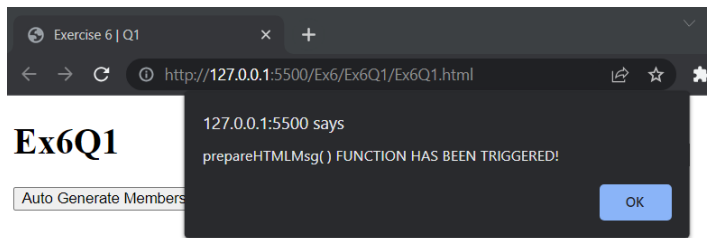

Ex5Q2

ID	Name	MobileNumber
m001	John	91234567
m002	Mary	92345678
m003	Charlie	93456789
m004	Stanley	95678912

Exercise 6Q1: CreateMembers() function is triggered after clicking on Auto Generate Members button. When List Members button is clicked, the member details are presented to the user.

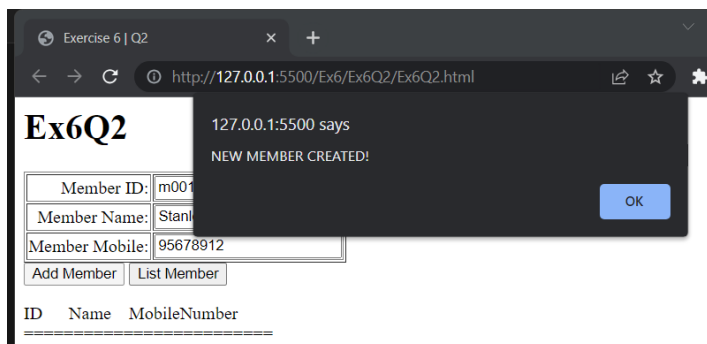

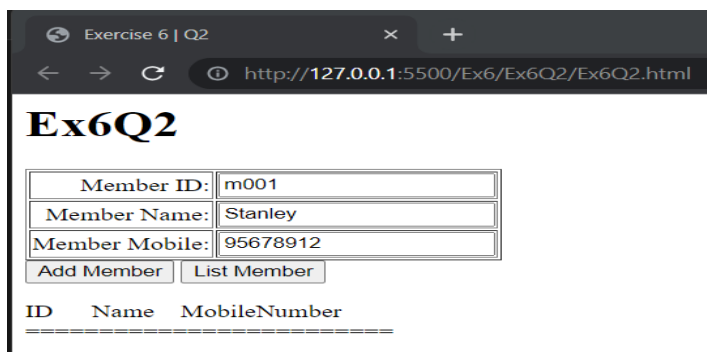

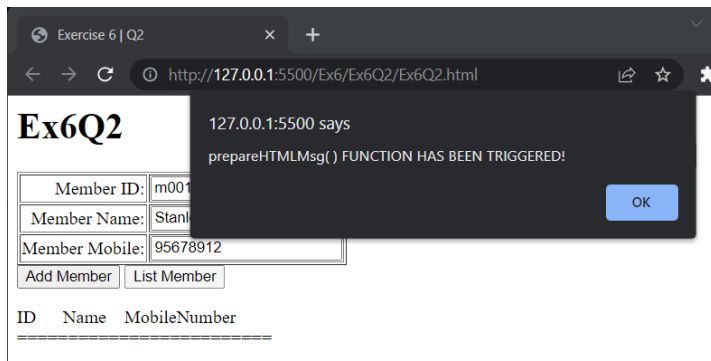

Ex6Q1

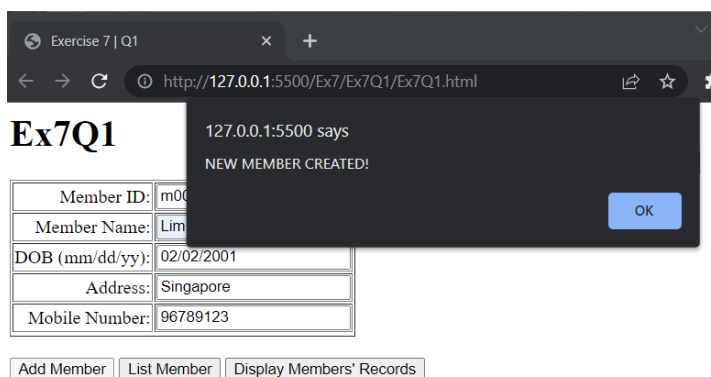

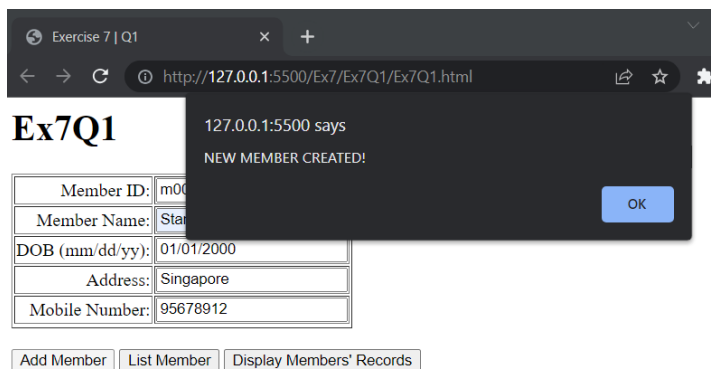

ID	Name	MobileNumber
m001	John	91234567
m002	Mary	92345678
m003	Charlie	93456789

Exercise 6Q2: User is prompted to input the member details to be added into the application. Once added, an alert will pop-up to notify the user account has been added/created. When List Member button is clicked, the prepareHTMLMsg() function will be triggered and the details of the added member will be presented to the user.

Exercise 7Q1: Similar to Exercise 6 with an addition of a new button 'Display Member's Records'.

Exercise 7 | Q1

http://127.0.0.1:5500/Ex7/Ex7Q1/Ex7Q1.html

Ex7Q1

127.0.0.1:5500 says
displayMemRecFunc() HAS BEEN TRIGGERED!

Member ID:	m00
Member Name:	Lim
DOB (mm/dd/yy):	02/02/2001
Address:	Singapore
Mobile Number:	96789123

Add Member List Member Display Members' Records

Exercise 7 | Q1

http://127.0.0.1:5500/Ex7/Ex7Q1/Ex7Q1.html

Ex7Q1

Member ID:	m002
Member Name:	Lim Teng Chwee
DOB (mm/dd/yy):	02/02/2001
Address:	Singapore
Mobile Number:	96789123

Add Member List Member Display Members' Records

ID	Name	DOB	Address	MobileNumber
m001	Stanley	01/01/2000	Singapore	95678912
m002	Lim Teng Chwee	02/02/2001	Singapore	96789123

Exercise 7Q2: The user is prompted to input the member details to be added into the application. Once added, the user can see the member records by using 'Display Member's Records' or 'List Members' button. Show Entry Form button hides the Div element highlighted in blue.

Exercise 7 | Q2

http://127.0.0.1:5500/Ex7/Ex7Q2/Ex7Q2.html

Click the "Try it" button

Try it
